ELSEVIER

Molecular Basis of Disease

Vol. 1271, 1995

BBA Biochimica et Biophysica Acta

Cumulative Contents

Preface ix

List of participants xi

Opening session (Chair: L. Ernster)

R. Luft: The development of mitochondrial medicine 1

Biochemistry of mitochondrial diseases (Chair: G.F. Azzone, H. Baum)

B. Chance and W. Bank: Genetic disease of mitochondrial function evaluated by NMR and NIR spectroscopy of skeletal tissue 7

G.K. Radda, J. Odoom, G. Kemp, D.J. Taylor, C. Thompson and P. Styles: Assessment of mitochondrial function and control in normal and diseased states 15

C.P. Lee: Biochemical studies of isolated mitochondria from normal and diseased tissues 21

D.P. Jones: Mitochondrial dysfunction during anoxia and acute cell injury 29

Mitochondria and oxidative stress (Chair: G. Dallner, C.P. Lee)

A. Meister: Mitochondrial changes associated with glutathione deficiency 35

D.J. Reed and M.K. Savage: Influence of metabolic inhibitors on mitochondrial permeability transition and glutathione status 43

M.W. Anders: Mitochondrial bioactivation of cysteine *S*-conjugates and 4-thiaalkonoates: Implications for mitochondrial dysfunction and mitochondrial diseases 51

A.F.G. Slater, C.S.I. Nobel and S. Orrenius: The role of intracellular oxidants in apoptosis 59

S.J. Korsmeyer, X.-M. Yin, Z.N. Oltvai, D.J. Veis-Novack and G.P. Linette: Reactive oxygen species and the regulation of cell death by the Bcl-2 gene family 63

C. Richter, V. Gogvadze, R. Laffranchi, R. Schlapbach, M. Schweizer, M. Suter, P. Walter and M. Yaffee: Oxidants in mitochondria: from physiology to diseases 67

Regulation of mitochondrial function in health and disease (Chair: H. Löw, K. Yagi)

H.R. Scholte, H.F.M. Busch, H.D. Bakker, J.M. Bogaard, I.E.M. Luyt-Houwen and L.P. Kuyt: Riboflavin-responsive complex I deficiency 75

B.D. Nelson, K. Luciakova, R. Li and S. Betina: The role of thyroid hormone and promoter diversity in the regulation of nuclear encoded mitochondrial proteins 85

J.B. Hoek, J.L. Farber, A.P. Thomas and X. Wang: Calcium ion-dependent signalling and mitochondrial dysfunction: mitochondrial calcium uptake during hormonal stimulation in intact liver cells and its implication for the mitochondrial permeability transition 93

B. Kadenbach, J. Barth, R. Akgün, R. Freund, D. Linder and S. Possekel: Regulation of mitochondrial energy generation in health and disease 103

H. Baum: Mitochondrial antigens, molecular mimicry and autoimmune disease 111

Keynote lecture (Chair: S. Orrenius)

G. Schatz: Mitochondria: Beyond oxidative phosphorylation 123

The mitochondrial DNA and cellular dysfunction (Chair: B.N. Ames, A.W. Linnane)

D.J. Dairaghi, G.S. Shadel and D.A. Clayton: Human mitochondrial transcription factor A and promoter spacing integrity are required for transcription initiation 127

J.A. Morgan-Hughes, M.G. Sweeney, J.M. Cooper, S.R. Hammans, M. Brockington, A.H.V. Schapira, A.E. Harding and J.B. Clark: Mitochondrial DNA (mtDNA) disease: correlation of genotype to phenotype 135

D.C. Wallace, J.M. Shoffner, I. Trounce, M.D. Brown, S.W. Ballinger, M. Corral-Debrinski, T. Horton, A.S. Jun and M.T. Lott: Mitochondrial DNA mutations in human degenerative diseases and aging 141
M. Zeviani, P. Amati, G. Comi, G. Fratta, C. Mariotti and V. Tiranti: Searching for genes affecting the structural integrity of the mitochondrial genome 153
P. Lestienne, Nelly Bataillé and B. Lucas-Heron: Role of mitochondrial DNA and calmitine in myopathies 159

Oxidative stress and aging (Chair: D.A. Clayton, K. Folkers)

B.N. Ames, M.K. Shigenaga and T.M. Hagen: Mitochondrial decay in aging 165
G. Cortopassi and E. Wang: Modelling the effects of age-related mtDNA mutation accumulation; Complex I deficiency, superoxide and cell death 171
T. Ozawa: Mechanism of somatic mitochondrial DNA mutations associated with age and diseases 177
A.W. Linnane, M. Degli Esposti, M. Generowicz, A.R. Luff and P. Nagley: The universality of bioenergetic disease and amelioration with redox therapy 191
L. Ernster and G. Dallner: Biochemical, physiological and medical aspects of ubiquinone function 195
G.H.W. Wong: Protective roles of cytokines against radiation: Induction of mitochondrial MnSOD 205

Molecular basis of mitochondrial disorders (Chair: B.D. Nelson, G.K. Radda)

T.P. Singer, R.R. Ramsay and B.A.C. Ackrell: Deficiences of NADH and succinate dehydrogenases in degenerative diseases and myopathies 211
J.E. Walker: Determination of the structures of respiratory enzyme complexes from mammalian mitochondria 221
X. Chen, E. Bonilla, M. Sciacco and E.A. Schon: Paucity of deleted mitochondrial DNAs in brain regions of Huntington's disease patients 229
J.N. Siedow, D.M. Rhoads, G.C. Ward and C.S. Levings III: The relationship between the mitochondrial gene T-*urf*13 and fungal pathotoxin sensitivity in maize 235
G. Attardi, M. Yoneda and A. Chomyn: Complementation and segregation behavior of disease-causing mitochondrial DNA mutations in cellular model systems 241

Clinical aspects of mitochondrial diseases (Chair: B. Afzelius, R. Luft)

E. Holme, M.H. Tulinius, N.-G. Larsson, A. Oldfors: Inheritance and expression of mitochondrial DNA point mutations 249
K.-D. Gerbitz, J.M.W. van den Ouweland, J.A. Maassen and M. Jaksch: Mitochondrial diabetes mellitus: a review 253
M.-L. Savontaus: mtDNA mutations in Leber's hereditary optic neuropathy 261
Y. Mizuno, S. Ikebe, N. Hattori, Y. Nakagawa-Hattori, H. Mochizuki, M. Tanaka and T. Ozawa: Role of mitochondria in the etiology and pathogenesis of Parkinson's disease 265
P.L. Peterson: The treatment of mitochondrial myopathies and encephalomyopathies 275
K. Folkers and R. Simonsen: Two succesful double-blind trials with coenzyme Q_{10} (Vitamin Q_{10}) on muscular dystrophies and neurogenic atrophies 281

Review

The fragile X syndrome
A.V. Flannery, M.C. Hirst, S.J.L. Knight, R.J. Ritchie and K.E. Davies (UK) 293

Regular Papers

The amino-terminal peptide of HIV-1 glycoprotein 41 fuses human erythrocytes
P.W. Mobley, H.-F. Lee, C.C. Curtain, A. Kirkpatrick, A.J. Waring and L.M. Gordon (USA, Australia) 304
cAMP-activated chloride channels in a CFTR-transfected pancreatic adenocarcinoma-derived cell line, pANS6
A.N. Smith, C.J.C. Wardle, J.P. Winpenny, B. Verdon, M.A. Gray, B.E. Argent and A. Harris (UK) 315
Role of antioxidants on the erythrocytes resistance to lipid peroxidation after acute iron overload in rats
M. Galleano and S. Puntarulo (Argentina) 321
Factors $X_{\text{Wenatchee}}$ I and II: compound heterozygosity involving two variant proteins
D.J. Kim, A.R. Thompson, D.R. Nash and H.L. James (USA) 327
Effect of α-lipoic acid and dihydrolipoic acid on ischemia/reperfusion injury of the heart and heart mitochondria
K. Schönheit, L. Gille and H. Nohl (Austria) 335
The effect of a synthetic neuromelanin on yield of free hydroxyl radicals generated in model systems
M. Zaręba, A. Bober, W. Korytowski, L. Zecca and T. Sarna (Poland, Italy) 343

Altered properties of mitochondrial ATP-synthase in patients with a T → G mutation in the ATPase 6 (subunit a) gene at position 8993 of mtDNA
J. Houštěk, P. Klement, J. Heřmanská, H. Houštková, H. Hansíková, C. Van den Bogert and J. Zeman (Czech Republic, The Netherlands) 349

Systematic screening for RNA with skipped exons – splicing mutations of the ferrochelatase gene
X. Wang, M. Poh-Fitzpatrick, T. Chen, K. Malavade, D. Carriero and S. Piomelli (USA) 358

Rapid Reports

Characterization of a 5025 base pair mitochondrial DNA deletion in Kearns-Sayre syndrome
M. Vázquez-Acevedo, R. Coria, A. González-Astiazarán, V. Medina-Crespo, C. Ridaura-Sanz and D. González-Halphen (Mexico) 363

Short Sequence-Paper

Cloning and sequence analysis of caprine *N*-acetylglucosamine 6-sulfatase cDNA
K. Friderici, K.T. Cavanagh, J.R. Leipprandt, C.E. Traviss, D.S. Anson, J.J. Hopwood and M.Z. Jones (USA, Australia) 369

Cumulative Contents, Vol. 1271 375
